

# BASIC EASY LIFE

**BASIC EASY LIFE**, thanks to a special gearcase, is able to manage the welding process in a semi-automatic way. The electronic system guarantees the continuous repeat of the welding cycles and automatic control of the preset parameters, therefore the operator needs only to validate the welding phases.

The user-friendly graphic display allows a quick setting of the desired parameters. The EASY LIFE system can **store up to 4000 welding cycles** and sum them up into a **PDF file**. This report can be transferred to a PC/laptop through a USB port and data-management software.

The EASY LIFE system data logging now shows the time!

**BASIC EASY LIFE** system is available in five models with working range from OD 40 mm to 355 mm.

## Models

**BASIC 160 EASY LIFE**

**BASIC 200 EASY LIFE**

**BASIC 250 EASY LIFE**

**BASIC 315 EASY LIFE**

**BASIC 355 EASY LIFE**

## TECHNICAL FEATURES

Dimension (W x D x H)	585 x 384 x 463 mm
Weight	37 Kg
Power supply	230 V Single phase 50/60 Hz
Total absorbed power	1100 W
